```

IMPORTANT INFORMATIONS :

1. Whatever the type of account, if there is no sessionParam on an account, that means that this account is not clickable
2. if there is a sessionParam, the action will depend on the account type :
    a. **DD** => current accounts => on click, display the account transactions history
    b. **OTH** => specific types of accounts (like livret A) => same behaviour as DD
    c. **LWI** => Life Wrap insurance => display insurances screens if there is a sessionId
    d. **INS** => Loans & Mortages => link to the L&M detail page
    e. **INV** => Invest accounts => link to TOMIC
    f. **PCC** => cards (differed debit ones only) => on click, display the card transactions
    g. OTH but with no sessionId => REIM SCPI => no action (not clickable)
3. All the accounts are displayed under several categories on the screen :
    a. Current Accounts (Comptes Courants) => DD
    b. Investments (Placements) => OTH (including SCPI except SCPI not clickable) and LWI
    c. Credit cards (Cartes) => PCC
    d. Loans (Crédits) => INS
    e. Securities (Titres) => INV
